# Spindle
# Proof of Delivery

## Do you have your own fleet of vehicles?
## Do you still use paper to record your deliveries?

**If so, then why not look at this solution for Sage 200 that could make everything that little bit easier?**

Ideal for businesses who operate their own-fleet deliveries or service staff who require a signature, the benefits of this software, exclusively for Sage 200, include:

- Android app for drivers

- Improved customer service with live control of the delivery fleet to quickly respond to customer requests

- Quickly capture customers signature, without the need to carry delivery notes and other paperwork

- Ability to schedule deliveries from sales order

- Receive notifications of failed deliveries

- Line by line deliveries acceptance

- The ability to create one off tasks for drivers

- Improved overall job management to record any issues and inform back office staff immediately

- Plan routes quickly and effectively to ensure overall fleet efficiencies are maximised

- Search all related documentation and reduce the chances of lost or misplaced documents
